**FILED VIA EFS**

FILED VIA THE ELECTRONIC FILING SYSTEM  
COMMISSIONER FOR PATENTS

**APPLICANT STATEMENT OF SUMMARY OF INTERVIEW**

This communication is being sent to formally respond to the Examiner's Interview Summary sent December 5, 2007. Applicants summarize the interview as provided below. A substantially similar summary was provided in Applicants' response to the Office action dated October 3, 2007.

Applicants thank the Examiner for the interview with the undersigned on November 26, 2007.

During that interview the allowability of claims directed to the nucleic acid sequences (claims 5, 7-10, 16, 27 and 30-32) was discussed, and the Examiner indicated that these claims, amended to be directed to at least 95% sequence identity, would be allowable.

During the interview, rejoinder of certain method claims depending from the allowable composition claims was also discussed. The Examiner provided helpful comments relating to possible amendments to claim 41 that may put claim 41 and its dependent claims in condition for allowance.

Respectfully submitted,

KLARQUIST SPARKMAN, LLP
